

- Injection tool or hose can be easily rotated
- Steerable material flow
- Blowing injection without twisting of the conveyer line during rotation
- Versatile in application

Every blowing injection technician knows the problem with twisted hoses and our rotary hose connectors solve them. They are tailored for blowing insulation technology and are compatible to our whole hose range.

The rotary hose connectors are sealed for typical pressures during blowing injection. For cleaning purposes the high-quality aluminium-made rotary hose connectors can be disassembled and maintained.

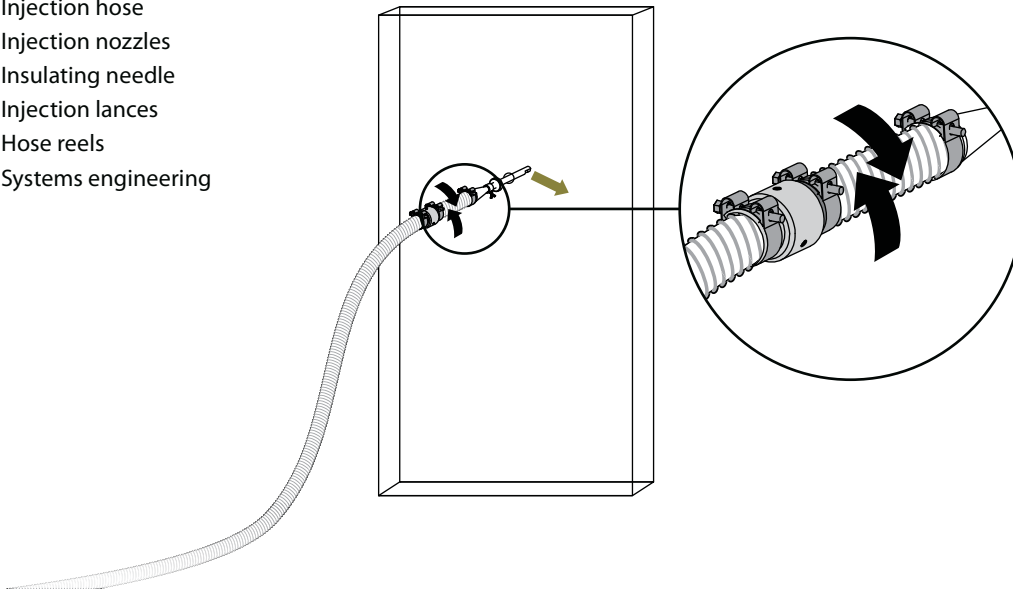

SDV50

SDV75

Application Examples

- ▶ Injection hose
- ▶ Injection nozzles
- ▶ Insulating needle
- ▶ Injection lances
- ▶ Hose reels
- ▶ Systems engineering

Also applicable for hose reels D1000 and D1000-plus!

Available Sizes

Typ	Hose connection D_s	Length L	Prod. no.
SDV75	NW75 (3")	140 mm	4451
SDV63	NW63 (2½")	140 mm	6896
SDV50	NW50 (2")	140 mm	6522
